

Hello,
We are a wild horse
herd. You can find us in
Germany. We move
through the woods.

Have fun with our
trip!

Here we were in a quarry. It was very funny there! We also sunbathed there. That was really nice! We also stayed there.

We even went up the hill! But only me and Cally. It was too dangerous for the foal. The others didn't want to. You had the best view from up there!

Here we were in the forest.
The blue flowers on certain
trees looked beautiful. The
foal could run around
particularly well!

Here you can see
us all again on the
meadow.

Here we were in the jungle. It was very hot and the sun was shining. We were all thirsty but there was still no water in sight. There was a shady spot where we could cool off for a while.

Here you can see us again in the jungle.

Here we came
out of the
jungle,

and we were
in the prairie.

We had finally found water and treated ourselves to a cool bath. Actually, it was very relaxing!

I hope you
enjoyed my
presentation!

Bye and see
you soon!
